Alcohol:
14.2%

pH:
3.79

Oak
12% new French

Aging:
17 months

Total Production
402 cases

Philosophy

We love to showcase what geeky, spicy, earthy, fascinating Cabernet Franc can be out of Washington. We believe that WA is one of the best growing regions for Cabernet Franc considering how many sunlight hours per day those late ripening grapes get up here. We pick a little on the early side so we don't lose those nuances Cabernet Franc notes and then we don't cover it with a lot of oak. This is one of our most fascinating wines each year.

Description:

Orange peel, lavender, plums, granite, cranberry, Tellicherry, black pepper powder, lots of perfume, cedar and cigars

The Art & Wine

Danilo DeFaria was born and raised in Minas Gerais- Brazil, where his love for photography began. From the artist: All my pictures are post-processed. Some say my work is “artistic, edgy, and sophisticated”, and I am totally fine with that because that is my intended goal – to start with a photograph and transform it into a visual art creation. I never called myself a “photographer”, but a better description would be “mixed media and visual artist. Ashley Trout, Owner & Winemaker
